CORPORATE PROFILE

Kuala Lumpur Kepong Berhad ("KLK"), a company incorporated in Malaysia, is listed on the Main Market of Bursa Malaysia Securities Berhad with a market capitalisation of approximately RM26.58 billion at the end of September 2018.

Started as a plantation company more than 100 years ago, plantations (oil palm and rubber) still lead as KLK’s core business activity. Through various strategic acquisitions and sound management, the Group’s plantation land bank now stands close to 285,000 hectares spread across Malaysia (Peninsular and Sabah), Indonesia (Belitung Island, Sumatra, central and east Kalimantan) and Liberia.

Since the 1990s, the Group has diversified into resource-based manufacturing (oleochemical, derivatives and specialty chemicals) and vertically integrated its upstream and downstream businesses. The KLK Group expanded its manufacturing operations through organic growth, joint-ventures and acquisitions in Malaysia, the People’s Republic of China, Switzerland, Germany, The Netherlands and Belgium resulting in internationally-scaled oleochemical operations.

The 1990’s also saw the Group capitalising on the strategic location of its land bank in Peninsular Malaysia by branching into property development.

Since the dawn of the 21st century, the Group has been in strong consolidation mode, in preparation for bigger leaps into the future.
